

Hesperia Community Library will be opening back up to the public [July 20, 2020](#) for our regular hours (10 am to 7 pm). All patrons **MUST** wear a mask in accordance with Executive Order 2020-147 and adhere to social distancing recommendations, as well as limit their time in the library to be respectful of other patrons.

Hesperia Community Library is committed to upholding high levels of cleanliness and sanitization during all stages of our re-opening. During our closure, the library was deep cleaned and sanitized. Our furniture and workstations were re-arranged with 6 feet of social distancing in mind. The staff looks wonderful in the masks they started wearing, and they have mastered the art of daily sanitizing. Going forward, the library will continue implementing sanitization methods to maintain cleanliness as patrons begin returning. We will be sanitizing high use areas/materials (computers) frequently, as well as limiting patrons in the library and minimizing points of contact between patrons and staff. Hesperia Community Library is excited to open back up to the public and can't wait to see you!
